COVID-19 Impacts

Our Wastewater Treatment Plant Operators, Donnie, Adam, Philip, and Jeff, are considered essential workers. They have been working regular hours and call out hours during this period of COVID-19. They are very conscientious and do great work. We are appreciative of all their efforts.

We have been using the Broome County Sheriff's Working Weekender Program since 2013 to mow the grass at the treatment plant which has saved thousands of dollars. Because of COVID-19, the Court System shut down the Working Weekender Program. As a result, we are now incurring contractual costs to have the grass mowed. Should there be residents who are willing to volunteer to mow the grass on a temporary basis, please call the Supervisor's Office at 655-2026.

Potential Development

A Developer has proposed putting a senior housing apartment building and intergenerational townhomes at Exit 77 in West Windsor. This housing would be for middle income people. New York State requires municipal water for this type of project. The Town continues to pursue municipal water in West Windsor. However, the Town Board is committed to not forcing any residence on municipal water. Should you have any questions about potential development in West Windsor, please call the Supervisor's Office at 655-2026.

Payment of Sewer Fees

The June 1st bill must be paid no later than July 7, 2020 (postmarks accepted) in order to avoid a penalty.

May 26, 2020
