

End of Year Financial Reporting

End of year financial reporting for 2014 and 2015 have been compared for the Sewer Budget. We are pleased to report that in 2015 there was an increase in revenue and a decrease in expenditures. The increase in revenue was mainly attributable to the sale of one portable generator that had not been used and was not needed. The decrease in expenditures was mainly due to (1) the new finance plan where the principal payment was reduced; (2) the decrease in the cost of utilities.

We will continue our budget goal of increasing revenue and decreasing or controlling expenditures.

Incentive Proposal Received

The Incentive Proposal to help pay for an engineering study which will assess future development of particular sites within the Town that will support mixed use facilities to help increase the total number of users connected to the West Windsor Waste Water Treatment Plant has been received and returned to Empire State Development. We are anticipating this project to start in April.

Payment of Sewer Fees

The 2016 fees are as follows:

Quarterly fee (Occupied)	\$218.00
Quarterly fee (Vacant)	\$138.30
Quarterly fee (Government/School)	\$212.64

These fees have a decrease from 2015 fees.

The March 1st bill must be paid no later than April 6th (post marks accepted) in order to avoid a penalty.
